

# Face Cozy International

Owned and operated by  
Morgan Sharp and  
Diane Roblin-Sharp  
[www.facecozy.com](http://www.facecozy.com)

## Problem:

Millions of adults and children suffer from sleep apnea and respiratory ailments. While the use of CPAP therapy and masks for other respiratory conditions can be life saving, the side effects on the skin can range from embarrassing to acutely troublesome, causing a wide range of dermatological issues, from unsightly skin indentations to pressure sores and even blisters.

## Solution:

The original FACE COZY® was designed by a frustrated CPAP user. When Diane Roblin-Sharp was diagnosed with Obstructive Sleep Disorder, the first night was traumatic with the recognition of a loss of freedom that was not easy to accept. When she awoke the next morning with skin indentations from where the straps had been, she was shocked. Shock gave way to depression when the marks remained visible all morning.

Diane tried all the proposed solutions available without success and so set to designing something that would work. After much trial-and-error with fabrics, designs and patterns, the FACE COZY® emerged as a welcome solution to the frustrations of CPAP/Oxygen therapy – not only for Diane, but for thousands of others. For most, the FACE COZY® totally erases strap issues; for others, it greatly reduces the associated marks and irritations and makes wearing the masks more comfortable. When sleep is improved, energy and health are improved.

And now Face Cozy is pleased to present the Face Cozy II - the Second Generation, a tiny bit thicker with increased bridge-of-the-nose and lower cheek coverage.

Recommended replacement - every 3 months  
Made from 100 percent Polyester Lambskin Fleece

## And now - the Face Cozy II

# Stay Cozy!

# A Few Testimonials

What a great product!! I have been using this product for close to 2 years and can't believe how well it works. I used to get up in the morning and my face would have deep ridges on my face and neck from the straps on my CPAP mask. I could count on one hand the number of times I have had a mark on my face in the morning since using the Face Cozy. I would pay double the price they ask if I had to. They can last well over a year. I would highly recommend the Face Cozy.

David J. Butcher

I just awoke from a great sleep and just had to share this with y'all. If you or someone you know uses a CPAP machine for sleeping, and are not particularly appreciative of having those annoying facial marks left by the mask straps in the morning, have a look at the invention called Face Cozy. Easy to use, improves sleeping comfort, eminently affordable and most importantly IT WORKS AS ADVERTISED! (Mine did)

Cheers John Bobaljik

Your Face Cozy is such a brilliant invention. Just the ticket! I know so many people like myself, who will bless you every morning they wake up without an indented face! :) Wow, going to The Creator for inspiration works. Belinda Burston

Well the first night I guess I didn't put it on quite right and the bridge of my nose was very irritated in the morning, I also felt quite warm. But last night I put it and then the mask on in front of a mirror and everything stayed in place and I had the best sleep in a long time. My husband who was watching me put it all on told my "you look really cute baby!" Awe he is a sweetheart and he felt for me with the lines on my face - so we have his approval too. The best part NO LINES ON MY FACE!! Wow I was so completely surprised, as I had done the mask a little tighter and expected some lines, but there was nothing there in the morning. In fact the moment I woke up I raced for the mirror to check and was so happy, and as I said the best sleep in a long time.

I am definitely thrilled with the Face Cozy. You have a very great little item there and I love it.

Donna, Oshawa, Ontario

I find with mine that the Face Cozy actually keeps my nose pillows in position better. Before I was wearing the Cozy, they seemed to slip around a bit. The Cozies are quite comfortable to wear.

David - Milton, Ontario

I find the Face Cozy very effective. It has made a big difference in my ability to wear my mask all night long. Before the Cozy, my mask was so uncomfortable that I couldn't tolerate it for the full night and would regularly take it off in frustration in the early morning hours.

David G. - Waterloo, Ontario

My husband was diagnosed with sleep apnea over 10 years ago. His sleep quality drastically improved from the onset of using a CPAP machine - my sleep quality drastically decreased. For more then 10 years, I have struggled to attain a full nights sleep due to the noises generated from his mask. After his first night of using the Face Cozy, I did not wake up once! Since the onset of using the Face Cozy, I have maintained quality sleep and feel completely refreshed when I wake up in the morning! Thank you so much for this quality fleece! It has revolutionized our life!!!

Jerdelle P. Brechin, Ontario

I love the Face Cozy. I used to be afraid people would think I had scars on my face in the mornings because of strap impressions from sleeping with my CPAP mask.

Now I don't have that problem!

D.R.L. - Uxbridge, Ontario

LOVE MY FACE COZY! These Face Cozys are a face saver! I can't tell you how many times I would just stay in the house because my face looked like I was beat with a stick, but now I no longer worry about those painful strap marks. The product is durable and remains soft even after many washes. This second order is not because the Face Cozy isn't lasting, but because I lost one while on vacation. From Amazon .com

*Stay Cozy!*

*Would you wear a shoe without a sole?  
Then why would anyone wear a CPAP device without a Face Cozy?*
