Cozy Masks for
Cozy Comfort

Problem:

- That annoying ridge around the back of your hair from headbands on regular sleep masks
- Frustration and discomfort from heavy masks on a long flight
- Resisting the need for a sleep mask for an afternoon power-nap, not wanting to risk afternoon hat-head

Solution:

Our soft, lambskin fleece Sleep 'n Spa Cozys are so light and soft that they bring a Cozy experience to your flight, your power-nap or your regular nighttime routine. Our patented ear-loop design means you can take a power-nap during your flight, or on your break, without fear of the dreaded ridge around the back of your hair caused by the elastic bands that normally hold sleep masks in place.

Soft ear loops eliminate the need for elastic bands or straps.

Perfect for health care applications where straps are prohibited or not well tolerated (i.e. – mental health facilities).

Whether you're nodding off during the afternoon slump at the office, working a double or a night shift, or fighting drowsiness while driving, scientists have found that taking a 15 or 20 minute power-nap can make you more alert and productive.

A Few Testimonials

Love it I wear it at night and it works. I also wear it when I have a migraine.

- Angie

I have 6 other masks but every one of them caused me hair trouble, so I tried this one. I now have ZERO hair issues! It is very soft and non intrusive. I say give it a chance if your hair is constantly dented!!!

- Margaret K.

BENEFITS:

- Patented ear-loop design
- Prevents elastic band ear top chafing commonly experienced from headbands
- Washable – reusable
- No elastics, straps or hair bands
- Eliminates most light and distractions to cozily enhance your rest.
- 100% polyester lambskin fleece
